7.1.2 The Designated Safeguarding Lead is the senior member of staff from the School's leadership team with lead responsibility for safeguarding and child protection, including online safety. The responsibility of the Designated Safeguarding Lead includes managing safeguarding incidents involving the use of technology in the same way as other safeguarding matters, in accordance with the School's child protection and safeguarding policy and procedures.

- 7.1.3 The Designated Safeguarding Lead will work with the Network Manager (see below) in monitoring technology uses and practices across the School and assessing whether any improvements can be made to ensure the online safety and well-being of pupils.
- 7.1.4 The Designated Safeguarding Lead will regularly monitor the incident log maintained by the Network Manager.
- 7.1.5 The Designated Safeguarding Lead will regularly update other members of the School's Senior Management Team on the operation of the School's safeguarding arrangements, including online safety practices.

## 7.2 Network Manager

- 7.2.1 The Network Manager, together with his team, is responsible for the effective operation of the School's filtering system so that pupils and staff are unable to access any material that poses a safeguarding risk, including terrorist and extremist material, while using the School's network.
- 7.2.2 The Network Manager is responsible for ensuring that:
  - (a) the School's technology infrastructure is secure and, so far as is possible, is not open to misuse or malicious attack;
  - (b) the user may only use the School's technology if they are properly authenticated and authorised;
  - (c) the School has an effective filtering policy in place and that it is applied and updated on a regular basis;
  - (d) the risks of pupils and staff circumventing the safeguards put in place by the School are minimised;
  - (e) the use of the School's technology is regularly monitored to ensure compliance with this policy and that any misuse or attempted misuse can be identified and reported to the appropriate person for investigation; and
  - (f) monitoring software and systems are kept up to date to allow the ICT team to monitor the use of email and the internet over the School's network and maintain logs of such usage.
- 7.2.3 All web access is filtered by Smoothwall. Different policies apply for staff (3 levels), Upper School, Middle School, Lower School and Junior pupils. The software also provides a Safeguarding portal to allow the designated Safeguarding lead to run specific safeguarding reports. The system can also be configured to create automated notifications.
- 7.2.4 The Network Manager will report regularly to the Governors' ICT Steering Committee on the operation of the School's technology. If the Network Manager has concerns about the functionality, effectiveness, suitability or use of technology within the School, including of the monitoring and filtering systems in place, he will escalate those concerns promptly to the Designated Safeguarding Lead.
- 7.2.5 The Network Manager is responsible for maintaining a central record of all serious incidents involving the use of technology and bringing any matters of safeguarding concern to the attention of the Designated Safeguarding Lead in accordance with the School's child protection and safeguarding policy and procedures.

- 7.3.3 Staff have a responsibility to report any concerns about a pupil's welfare and safety in accordance with this policy and the School's child protection and safeguarding policy and procedures.

### **7.4 Parents**

- 7.4.1 The role of parents in ensuring that pupils understand how to stay safe when using technology is crucial. The School expects parents to promote safe practice when using technology and to:
  - (a) support the School in the implementation of this policy and report any concerns in line with the School's policies and procedures;
  - (b) talk to their child to understand the ways in which they are using the internet, social media and their mobile devices and promote responsible behaviour; and
  - (c) encourage their child to speak to someone if they are being bullied or otherwise are concerned about their own safety or that of another pupil or need support.
- 7.4.2 If parents have any concerns or require any information about online safety, they should contact the Designated Safeguarding Lead.

## **8 Access to the School's technology**

- 8.1 The School provides internet, intranet access and an email system to pupils and staff as well as other technology. Pupils and staff must comply with the respective acceptable use policy when using School technology. In the Junior School, access by children is monitored by an adult at all times. All such use is monitored by the ICT Helpdesk.
- 8.2 Pupils and staff require individual user names and passwords to access the School's internet, intranet (and social media sites where appropriate) and email system which must not be disclosed to any other person. Any pupil or member of staff who has a problem with their user names or passwords must report it to the ICT team immediately.
- 8.3 No laptop or other mobile electronic device may be connected to the School network without the consent of the Headmaster, Bursar or Network Manager. The use of any device connected to the School's network will be logged and monitored by the ICT team. See also 8.5 below and the School's information security policy (including remote working and bring your own device to work).
- 8.4 The School has a separate Wi-Fi connection available for use by visitors to the School. A password, which is changed on a regular basis, must be obtained from a member of staff in order to use the Wi-Fi. Use of this service will be logged and monitored by the ICT helpdesk.

## 8.5 Use of mobile electronic devices

- 8.5.1 The School has appropriate filtering and monitoring systems in place to protect pupils using the internet (including email text messaging and social media sites) when connected to the School's network. Mobile devices equipped with a mobile data subscription can, however, provide pupils with unlimited and unrestricted access to the internet. In certain circumstances, a pupil may be given permission to use their own mobile device to connect to the internet using the School's network. Permission to do so must be sought and given in advance.
- 8.5.2 The School rules about the use of mobile electronic devices, including access to open / non-School networks, are set out in the acceptable use policy for pupils.
- 8.5.3 Personal devices can connect to a 'guest' network within school – this provides no more access than connecting these devices from outside school. Currently staff and pupils can access all publically accessible websites (including isams, moodle, webmail) from any device. Other services require connection through a secured Citrix login.
- 8.5.4 The School's policies apply to the use of technology by staff and pupils whether on or off School premises and appropriate action will be taken where such use affects the welfare of other pupils or any member of the School community or where the culture or reputation of the School is put at risk.

  - 10.3.4 the definition of cyberbullying, its effects on the victim and how to treat each other's online identities with respect;
  - 10.3.5 the consequences of negative online behaviour; and
  - 10.3.6 how to report cyberbullying and / or incidents that make pupils feel uncomfortable or under threat and how the School will deal with those who behave badly.
- 10.4 The safe use of technology aspects of the curriculum are reviewed on a regular basis to ensure their relevance.
