1 Introduction

- 1.1 The School believes that effective relationships education and relationships and sex education is essential for young people to make responsible and well-informed decisions about their lives. The aim of relationships education and relationships and sex education is to help prepare pupils for the opportunities, responsibilities and experiences of adult life. The School recognises that to embrace the challenges of creating a happy and successful adult life, pupils need knowledge that will enable them to make informed decisions about their wellbeing, health and relationships and to build self-efficacy. These subjects can support children and young people to develop resilience, to know how and when to ask for help, and to know where to access support.
- 1.2 The School recognises that the role of parents in the development of their children's understanding about relationships is vital. Parents are first teachers of their children. They have the most significant influence in enabling their children to grow to maturity and to form healthy relationships. The School's relationship education and relationships and sex education programme is intended to complement and support the role of parents and carers in educating their children about sexuality and relationships.

7 Definition of relationships education and relationships and sex education

- 7.1 Relationships education for primary education and relationships and sex education for secondary education is part of the PSHE curriculum in the context of a broad and balanced curriculum, intended to provide what children and young people need to know about how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way. It comprises learning about the nature of marriage and civil partnership and their importance for family life and the bringing up of children; safety in forming and

maintaining relationships; the characteristics of healthy relationships and how relationships may affect physical and mental health and wellbeing. The education provided is age appropriate and developmentally appropriate and is taught sensitively and inclusively, with respect to the backgrounds and beliefs of pupils and parents, with the aim of providing pupils with the knowledge they need of the law.

- 7.2 Sex education, as part of relationships and sex education in secondary schools, includes also the teaching about intimate and sexual relationships, including sexual health. It also includes what the law says about sex, relationships and young people, as well as broader safeguarding issues and using technology.
- 7.3 Sex education is not compulsory in primary schools. The School science curriculum policy includes reference to the subject coverage in related areas, including the main external body parts, the human body as it grows from birth to old age (including puberty) and the reproduction in some plants and animals].

8 Curriculum content

- 8.1 By the end of primary education, relationships education will include teaching about families and people who care; caring friendships; respectful relationships; online relationships and being safe.
- 8.2 In addition to relationships education, the Junior School will teach sex education contained in the science curriculum policy about the main external body parts, the human body as it grows from birth to old age (including puberty) and the reproduction in some plants and animals.
- 8.3 By the end of secondary education, relationships and sex education will include teaching to develop knowledge on the topics specified for primary education. In addition, the curriculum provision will include teaching about families; respectful relationships, including friendships; issues around being online and the media; being safe and intimate and sexual relationships, including sexual health.
- 8.4 In addition to relationships education, the Senior School will teach sex education in the Biology curriculum about the reproductive organs, fertilisation, pregnancy, birth, puberty, the menstrual cycle and birth control.

9 Equality

- 9.1 The School will ensure that it considers the makeup of the student body, including the gender and the age range of the pupils and take this into account in the design and teaching of relationships education and sex and relationships education. The School will consider whether it is appropriate or necessary to put in place additional support for pupils with particular protected characteristics.
- 9.2 The School will be alive to issues such as sexual violence and sexual harassment, sexism, homophobia and stereotypes and will take positive action to build a culture of respect where such issues will not be tolerated and any incidences are identified and tackled.
- 9.3 **Students with special educational needs and disabilities (SEND):** relationships education and relationships and sex education will be accessible for all pupils and to ensure this, teaching will be differentiated and personalised. The School is aware that some pupils are more vulnerable to exploitation, bullying and other issues due to the nature of their SEND and will take this into consideration when designing and teaching these subjects.

- 9.4 **Lesbian, Gay, Bisexual and Transgender (LGBT):** The School will ensure that the teaching of relationships education and relationships and sex education is sensitive and age appropriate in content and will consider when it is appropriate to teach pupil about LGBT. This content will be fully integrated into the programmes of study rather than delivered as a stand-alone unit or lesson.
- 9.5 The School is aware of its legal duties, including those pursuant to the Equality Act 2010, which makes it unlawful for the proprietor of the schools to discriminate against, harass or victimise a pupil or potential pupil in prescribed circumstances, including:
- 9.5.1 in the way it provides education for pupils;
- 9.5.2 in the way it provides pupils access to any benefit, facility or service; or
- 9.5.3 subjecting them to any other detriment.
- 9.6 The School is also aware of its duties to teach about equality issues and to ensure teaching at the School does not discriminate against pupils.

10 **Curriculum delivery**

In the Junior School:

The content of the relationships and sex education curriculum is delivered through the PSHE programme, via assemblies and through curriculum Science. The PSHE programme (see appendix 2) is delivered by form teachers. Many of the themes covered are supported through other curriculum subjects: English, ICT, RE and Humanities and the school endeavours to develop cross-curricular links where possible. Assemblies are delivered by members of staff and, occasionally, external agencies

The relevant sections within the Science curriculum are listed in Appendix 2.

Each child has an entitlement to access the PSHE curriculum. The resources used and topics taught will reflect the multicultural society in which we live. Staff will ensure all pupils are comfortable within PSHE lessons and that every child has the opportunity to participate fully in all lessons regardless of their ability, gender or ethnic background. Staff will ensure that any specific learning needs are catered for within a lesson, for example, supporting any child who may require support with communication or one who requires a multi-sensory approach for engagement. All children are involved in creating their class 'charter' to ensure all children are engaged and involved in decisions and discussions.

In the Senior School

The content of the relationships and sex education curriculum is delivered mainly through the three curriculum areas of Life Studies, Computer Science and Biology and also the pastoral programme and is delivered in the following ways:

Through the Life Studies curriculum and relevant sections of the Computer Science and Biology curricula (see curricula maps in Appendices 3-5).

Through the pastoral programme (see overviews in Appendices 6 -8):

- form period programme delivered by form tutors
- assemblies delivered by members of staff and / or external agencies

Some aspects of the relationships and sex education curriculum are also covered in other curricular areas, for example respect for others in PE, marriage in History, the legal rights regarding equality in History and Drama, roles and responsibilities of parents in English, Drama and Classics.

Some aspects may be covered via presentations or workshops delivered by external agencies organised by the pastoral team or Life Studies Head of Department.

11 Pupil questions

- 11.1 The School appreciates that pupils may ask their teachers or other adults' questions pertaining to sex or sexuality which go beyond the School's curriculum. The School's approach is to ensure that teachers are confident to deal with such questions in an age-appropriate manner, recognising that children whose questions go unanswered may turn to inappropriate sources of information. INSET and other training will seek to include information on how teachers can respond.

12 Safeguarding, reports of abuse and confidentiality

- 12.1 The School will follow *Keeping children safe in education (KCSIE)* and will ensure children are taught about safeguarding, including about how to stay safe online. Open forums to discuss potentially sensitive issues will be made available to children. Children will also be made aware of how to raise concerns or make a report and how any report will be handled.
- 12.2 Teachers will follow the School's safeguarding policy on confidentiality between themselves and students and manage an appropriate level of confidentiality. Students should be reassured that their best interests will be maintained, but teachers cannot offer or promise absolute confidentiality. Teachers will follow the School's safeguarding policy if a child protection issue is raised.
- 12.3 The School will encourage students to talk to their parents or carers and support them to do so. The School will also inform students of sources of confidential help, for example, the School nurse, counsellor, GP or local young person's advice service.
- 12.4 Where the school invites external agencies to support the delivery of these subjects, the School will agree in advance of the session how a safeguarding report will be dealt with by the external visitor.

13 Parents' and carers' participation

- 13.1 The School recognises that parents and carers are the first teachers of their children and that they play a vital role in:
- 13.1.1 teaching their children about relationships and sex;
 - 13.1.2 maintaining the culture and ethos of the family;
 - 13.1.3 helping their children cope with the emotional and physical aspects of growing up;
 - 13.1.4 preparing them for the challenges and responsibilities that sexual maturity brings.
- 13.2 The School will consult with parents and carers in the development and review of this policy and on the content of the relationship education and relationship and sex education programmes. See Appendix 1.

- 13.3 The School will communicate to parents what will be taught and when in delivering relationships education and relationships and sex education. See Appendices 2-8.
- 13.4 Parents and carers of secondary age children have the right to request that their child be withdrawn from some or all of sex education delivered as part of relationships and sex education at secondary age except for those parts included in the science curriculum, which cover the biological aspects of human growth and reproduction. The School will make alternative arrangements for students in each case so that they receive appropriate, purposeful education during the period of withdrawal.
- 13.5 Following a request to withdraw in relation to a secondary age child, the Head will request a discussion with the child's parents or carers, and where appropriate, with the child. Following that discussion, except in exceptional circumstances, the School should respect the parents' or carers' request to withdraw the child, up to three terms before the child turns 16. After that point, if the child wishes to receive sex education rather than be withdrawn, the School should make arrangements to provide the child with sex education during one of those terms. There may be exceptional circumstances where the Head may want to take into account a pupil's specific needs arising from their special education needs or disability when making this decision. Any discussions and decisions will be documented by the School.
- 13.6 Parents and carers of primary age children have the right to request that their child be withdrawn from some or all of sex education delivered as part of relationships and sex education at primary age except for those parts included in the science curriculum.
- 13.7 The Head will automatically grant a request to withdraw a pupil from any sex education delivered in primary schools, other than as part of the science curriculum.
- 13.8 The parents' and carers' right to request that their child be withdrawn from some or all of sex education will be communicated to them by the School. There is no right to withdraw from relationships education.

14 Consultation

- 14.1 This policy will be reviewed in consultation with parents and carers and seeks to take into account the views of teachers and pupils.

15 Training

- 15.1 The School ensures that regular guidance and training is arranged on induction and at regular intervals thereafter so that staff and volunteers understand what is expected of them by this policy and have the necessary knowledge and skills to carry out their roles.
- 15.2 The level and frequency of training depends on role of the individual member of staff and the need for them to complete risk assessments as part of their role.
- 15.3 The School maintains written records of all staff training.

16 Record keeping

- 16.1 All records created in accordance with this policy are managed in accordance with the School's policies that apply to the retention and destruction of records.
- 16.2 All matters arising from this policy involving a child protection issue will be recorded and dealt with under the school safeguarding policy.

16.3 The information created in connection with this policy may contain personal data. The School's use of this personal data will be in accordance with data protection law. The School has a Data Protection Policy on its website which explains how the School will use personal data.

17 **Monitoring, evaluation and review**

17.1 The Heads of Department with responsibility for Life Studies, Computer Science and Biology and Heads of Section (Senior School) and PSHE co-ordinator, Science Co-ordinator and ICT co-ordinator (Junior School) will ensure that:

17.1.1 all schemes of work are reviewed on a regular basis to assess the content and that the content as defined within the policy is accurate and conforms to current guidance;

17.1.2 colleagues within their department or staff delivering this curriculum are familiar with this policy and ensure that delivery conforms to the guidelines set down in the policy and its appendices;

17.1.3 staff teaching any part of this programme are asked to review content and delivery. The outcomes of this evaluation are used to inform future amendments to the teaching programme, consultation with parents and any training and development needs;

17.1.4 any review of the programme includes an opportunity for the views of parents to be considered;

17.1.5 the content of all outside agencies' presentations is evaluated to ensure that it is in line with this policy.
